

Junica Marsen Jem C. Guiao

#140 San Jose, San Simon, Pampanga, Philippines | +63 968-580-6673 | junicamarsenjemguiao@gmail.com

PROFESSIONAL PROFILE

Information Technology graduate specializing in Business Analysis and UI/UX Design, with hands-on experience translating user needs into clear requirements, product backlogs, and design solutions. Skilled in feature research and competitive analysis, including building comparison matrices that benchmark product features against industry competitors to support data-driven decisions. Proficient in Figma and Webflow for designing and prototyping user-centered interfaces, with a growing foundation in data analysis and front-end development. Builds strong cross-functional collaboration and communication skills through close work with development, design, and product teams. Eager to apply these skills to deliver meaningful web-app systems that enhance user experience and drive engagement.
